CONDITIONS OF APPROVAL

The applicant shall install and maintain in proper operating condition a water flowmeter and that flowmeter shall be used to provide accurate and complete record from which water use shall be reported to the Chief Engineer on or before December 1 of the year for which water use is being reported. Failure to file the annual water use report by the due date shall cause the applicant to be subject to a civil penalty.

The use of water herein authorized shall not be made so as to impair any use under existing water rights nor prejudicially and unreasonably affect the public interest.

That the diversion of water authorized herein shall not cause an increase in depletion to any severely depleted groundwater aquifer or severely depleted stream course.

That the diversion of water authorized herein shall be diverted from, and used within, the same hydrologic unit where the water rights were deposited.

That any violation of the terms and conditions of this term permit shall make the permittee subject to the penalty provisions of K.A.R. 5-17-13.

The Chief Engineer specifically retains jurisdiction in this matter with authority to make such reasonable reductions in the approved rate of diversion and quantity authorized, and such changes in other terms, conditions, and limitations set forth in this approval and permit to proceed as may be deemed to be in the public interest.
